

Lawrence Weston Community Farm

Woodland coppicing days

With Jon Attwood from Forest of Avon Trust

Friday February 24th

11am - 4pm

Friday March 2nd

11am - 4pm

Come and learn how to *coppice hazel in our beautiful Water Vole Woodland. We will look at some simple things to make out of hazel and also make a hazel dead hedge. **There will be a campfire, hot drinks and snacks.**

* Coppicing is a traditional method of woodland management which takes advantage of the fact that many trees make new growth from the stump or roots if cut down.

Please call Kerry to book a place on 0117 9381128 or kerry@lwfarm.org.uk (Free for farm volunteers and BS11 residents. £10 for all other participants.)
